

Turn Your Electric Water Heater Into a Smart Appliance Bridging the Gap Between Traditional Homes and the Future

Can you control your water heater from anywhere, anytime? Can you easily turn your water heater off when you go on vacation to save energy and money? Do you know how much hot water you have left in your tank? Do you know if your water heater has a leak or a bad thermostat? Do you know how much energy your hot water heater uses every week? Month? Year? Do you wish you had a smart water heater?

With Armada Power you can get all this and so much more.

Why Choose Armada Power?

For the Control

Armada Power's connected device and user-friendly mobile app transform your water heater into a smart appliance that puts all the information you need and all the control you want at your fingertips.

For the Savings

Armada Power's innovative solution combines an easy-to-install device with smart, secure technology to help you reduce your energy usage and save money without changing your hot water availability.

For the Future

Armada Power transforms electric water heaters into energy storage for the electric power grid, to alleviate excess demand and stress, and mitigate the risk of future blackouts and brownouts.

24/7 Control

Access information and control your water heater from anywhere, anytime.

Leak Alerts

Leak sensors provide instant alerts to avert potential catastrophic failures.

Preventative Maintenance

Receive alerts on failing water heating elements and thermostats.

Real-Time Data

Monitor your water heater power usage, water temperature, and more.

Usage Insights

See how much energy your water heater uses every day, every week, every month, every year.

Time-of-Use Scheduler

Save energy and save on your energy bill with easy time-of-use scheduling.

Vacation Scheduler

Turn off your water heater when you're away so you're not paying for hot water you don't need.

Comfort Optimization

All the insights and control, with no change to your hot water availability.

Quick Installation

Installed by trained technicians in less than 30 minutes.

Easy Enrollment

Complete the sign-up process in just minutes with your mobile device.

Smart Water Heater Solutions. Making Super Smart Super Simple.
